

Mount Itasca Inclement Weather Policy

- 1) The following policy applies to the alpine and tubing venues: *If the weather forecast shows air temperatures to be colder than -10 degrees at 10 am and not expected to reach 0 degrees by noon or if blizzard conditions are predicted with over a foot of snow, the manager will post CLOSED on Facebook and notify employees and any reservations. A close/open decision will generally be made the evening beforehand, but the decision may be delayed until 9:00 AM on the same day.*
- 2) Biathlon competitions will not be held with a temperature below -20 degrees Celsius (-4 degrees Fahrenheit). The competition will be delayed an hour or two from the originally scheduled time if it appears the temperature will climb above -20 deg. C by that time.
- 3) Minnesota Youth Ski League (MYSL) classes will be cancelled if the temperature is predicted to be colder than -10 degrees Fahrenheit or the wind chill is predicted to be colder than -15 degrees Fahrenheit (see <https://mysl.org/node/127302>).
- 4) Ski jumping activities generally take place unless the air temperature is -10 degrees Fahrenheit or colder.
